

## **THE GREAT CONJUNCTION**

### **BACKGROUND**

Finally, it was the dawning of the day.

21 December 2020.

The Day of Solstice.

But also synchronistically,  
the Day of the Great Conjunction.

Jupiter and Saturn.

I was with a wonderful group in Egypt.

We were visiting first, Saqqara to celebrate Solstice.

And THEN.

My most favourite temple in the whole of incredible Egypt.

Abydos.

The Heart Temple.

And that night, when staying over in Abydos, we saw it -  
the conjunction in the night sky between the planets, Jupiter and Saturn.

A turning point.

For us, for humanity.

Why?

### **THE SETTING UP OF A COMPLETELY NEW SOCIAL-POLITICAL BACKDROP**

It marked the beginning of a completely new social-political backdrop.

We went from long-term materialism where what you own, earn, accumulate was the only  
measure of success, power (earth element).

To freedom, social justice, connection, speedy change (air element).

This was huge!

And yet only the beginning.

Of a completely new 800 year cycle where the dominance of the earth element moved  
away.

To air (and in time, the other elements, fire, water.)

0 degree of Aquarius!

### **THE FIRST TESTING POINT**

What occurred on 21 December 2020 was the seeding point.

And now we have the first testing point.

Starting on the Full Moon of 19 August. The next testing point will be Christmas Eve.

And the final completion - in this sense - June 2025.

### **QUESTION**

So how are you doing?

What progress have you made?

How are you adjusting to this new mindset?

Are you receiving it, living it?

Or are you resisting and making it hard?

The Great Conjunction comes with no fanfare.

It is in many ways hard work. Perseverance. The Saturn aspect.

And yet- the infinite possibilities of embracing a completely new way - MOVING AWAY  
from the old materialistic mindset, of finding security in things, hanging on to the old -  
brings incredible abundance.

Freedom.

Happiness on a level we have never experienced before.

So are you ready?

Take off.

It is becoming real. With infinite gratitude, optimism and hope, Elizabeth
