

NEW MOON & ANNULAR SOLAR ECLIPSE!

2 OCTOBER 2024

In the sign of LIBRA

THEME: INTENSE NEW BEGINNINGS TO CATAPULT YOU INTO LIGHT

“I am Initiation by fire.

The lighting path that brings final transformation.

Shattering any false containers of Self.

Moving you from separation to Ascension.

Only your true identity will live through my fire.

To be reborn in the Heart of ALL.

Give up what you seem to be, in order to become fully, what you ARE.

Because I am a quickening of your physical, mental, emotional and etheric bodies.

As you become more aligned with my descending energies and evolve in consciousness,

your body's vibration is raised.

Quickening transmutation of the shadows of the past, judgements and old patterns that have held you back.

Adjust yourself and your energy patterns to accommodate my New Flow of Light.

It will feed you on every level of your being.

Remember you are an emissary of great change.

You are a transformer of the collective myth.

As you ride the crest of the wave, the intensity of my Light,

you are traveling both outward and inward on your journey Home.

For yourself and for all those who will follow after you.

YOU ARE THE CHOICE IN EACH MOMENT.

IGNITE.

With blessings of this New Moon and concluding Eclipse bringing a catapult of huge LIGHT

Elizabeth
